Software Engineering

Profile

Highly motivated and detail-oriented Computer Science graduate with a passion for solving complex problems by applying creative solutions. Strong logical mindset that thrives in an environment that challenges analytical skills. Eager to learn and grow through hands-on experience, with the primary goal of turning experience into a long-term software development career.

Skills

- Java, C# (.NET), HTML/CSS/JavaScript, Bootstrap, SQL, MySQL, Python, Django, Flask, Node.js, Express, Linux servers, Ollama, Podman, Docker, Quarto, Bash, Powershell
- Version control: Git, Github
- Object-oriented programming, problem solving, testing, debugging, data structures and algorithms

Education

Bachelor of Science in Computer Science, Weber State University, Ogden, Utah; Summer 2026, GPA: 3.96
Associate of Science in Computer Science and Information Systems Honors, Salt Lake Community College, Salt Lake City, Utah; 2024, 3.79 GPA
Certificate of Proficiency, Software Development, Salt Lake Community College, Salt Lake City, Utah; 2024

Projects

Collaboratively developed an academic integrity Software Development tool, Only Aces, that is OS agnostic. Operates through periodically syncing student code to a professor's server silently using git version control tooling in the background while a student works.
Built a Flask app pipeline where students submit a photo of handwritten C++ code, review its translation, and then submit it, where it is ran in a secure, sandboxed container. OCR is done by a local LLM using ollama, all data is stored locally without a user state, and results are exportable via PDF for assignment submission.
See link in Contact Information for more projects and full access to Github profile and repositories.

Work Experience

Tool Rental Associate, The Home Depot, West Valley City, UT
June 2022 - January 2023
Overnight Freight Associate, The Home Depot, West Valley City, UT
March 2020 - May 2021
